## STUDY PRESENTATION

### Evolution and Figures of Greek Hotel Capacity 2015-2019

Tourism in Greece recoded a remarkable increase in recent years and became one of the main supports of Greek economy during the years of economic crisis.

Greek hotel sector had a significant role regarding tourism development and contributes more than 60% in tourism sector. Greek hotels with constant upgrade, high quality and large variety services succeed to attract tourists and make our country one of the most popular tourism destinations.

In this study, the evolution of hotel capacity during the five-year period 2015-2019 is presented and rich primary statistical material, useful for anyone involved in tourism is provided.
